

By Tennessee state law a "Stray" cat or dog becomes your property after providing care for 3 days if it doesn't have a microchip or ID tag and 5 days if it does have a microchip or ID tag. If you are looking to surrender a stray to any of the following rescues, it will need to be after that time period as a rescue isn't allowed to intake strays. If your city or county does not have a shelter/animal control, this rule still applies. **NO EXCEPTIONS.**

Transport

Most shelters in Tennessee are overflowing with unwanted pets that might have a better chance of survival elsewhere. The following associations help relocate southern pets up north where they might have a higher chance at finding their forever home.
